Risk Assessment OA7

Establishment _____Castle Cornet_____

Assessment Date _____

Activity / Environment _____ **Completed by** _____

Educational Objectives _____ **Date reviewed** _____

1 Hazard	2 Who might be harmed?	3 Is the risk adequately controlled?	4 What further action is needed to control the risk?
Outside Care needs to be taken between the ramp from the walkway and the Castle Bridge as cars park in this area. Dangerous access at High Tide in stormy weather.	Children and adults who do not watch for cars and boats being moved	The group should be supervised or given advanced warning. Check tide tables and cancel if weather forecast poor.	
Inside the Castle Grounds Uneven surfaces No safety barriers around cannons, historic walls etc.	Adults with mobility problems Children running around unsupervised.	The Castle is well staffed and the Castle adheres to guidance on Health and Safety in historic sites.	Staff visiting the Castle should make a pre-visit so that they can offer clear guidelines to pupils. Free passes are available to teachers on request
Inside Museums None – Museum buildings are covered by a Salle Publique licence. Museum staff are trained to support teachers in the supervision and management of groups.
